La navigazione sui sentieri outdoor

MyNav sposta i confini della navigazione assistita al mondo outdoor. Non è solo un gps cartografico, ma un navigatore per muoversi ovunque: sentieri outdoor, percorsi mountain bike, strade, piste da sci.

Menù ed interfaccia sono estremamente intuitivi come in un navigatore stradale, massima leggibilità e immediatezza delle informazioni.

MyNav 500 può essere usato in auto come navigatore stradale.

Trip Computer, profili altimetrici, tracce GPX, DVD Map Manager incluso nella confezione.

Navigating along outdoor paths

MyNav shifts the borders of assisted navigation to the outdoor world. It is not only a cartographic gps but a navigator to move everywhere: outdoor paths, mountain bike routes, roads, ski slopes.

The menus and the interface are extremely intuitive as in a street navigator, resulting in absolutely clear information and first-rate readability.

MyNav 500 can be used in the car as a street navigator.

Trip Computer, elevations, GPX tracks, DVD Map Manager in the box.

Outdoor Navigation auf neuen Wegen

MyNav bringt die satellitenunterstützte Navigation in den Outdoor Bereich. Weit mehr als nur ein kartenfähiges GPS-Gerät, gewährleistet das Navigationssystem umfassendes Routing auf Wanderwegen, Mountainbike-Strecken, Straßen und Skipisten.

Das Menü ist wie bei einem Straßen Navigationsgerät intuitiv bedienbar und bietet ein Maximum an Lesbarkeit sowie unmittelbare Übersicht der Informationen.

Selbstverständlich können Sie den MyNav 500 auch zur Straßennavigation verwenden.

Trip Computer, Voransicht Höhenprofil, GPX Tracks, Map Manager.

Technical Specification

400Mhz Processor
ROM - 128 MB
RAM - 64 MB
Display touchscreen 3.5"
(240*320)
Transflective
MicroSD - HC (Up to 16 Gb)
